

Duck's intestine, courtesy by Mr. Tao Wei, The intestine scraper-who scrape the fat from the rural intestine and wash it as pre-preparation for it's use in 'Chaffy Dish' or other use. Usually is the worker in the restaurant. (not the duck or goose culler). These people were 'close' contact with avian flu viruses. Do need some attention on this.

Pig's esophagus (not the 'Trachea' whose epithelium has receptors for both avian and human influenza viruses)

“What kind of restaurant makes you cook your own food?!”, said by **Bill Murray** to **Scarlett Johansson** when referred to ‘the worst lunch’ in **Sofia Coppola’s** movie ‘**Lost in Translation**’.

The kind of restaurant they went to is very popular in Asia, the dish they served is called ‘ひなべ’ or ‘chaffy dish’, which means you have a boiler with soup/water so you can cook meat, beef, seafood and ‘anything’ in it by yourself.
